

## PRICE SCHEDULE

### SEEDLINGS & TRANSPLANTS FOR DELIVERY WINTER 2017 / SPRING 2018

#### Over the Counter Price

Includes:

- Mycorrhizal inoculation
- Control release fertilizer (if present)
- Standard packaging
- 10 days free cold storage

Extra Cost:

- Seed charges - all items
- Extended cold storage-if required

#### Contract Growing Price

If your requirements are better met with a prearranged or custom growing plan, or need large quantities or require special services, contract growing locks in availability of production space & best price

	Over the Counter Per Thousand	Over the Counter Per Hundred	Contract Grow** Per Thousand	
<b>CONTAINER</b>				
STYRO 2A	\$194.00	\$37.00	\$140.00	
STYRO 4A	\$213.00	\$41.00	\$150.00	
STYRO 5	\$233.00	\$46.00	\$170.00	
STYRO 6	\$280.00	\$54.00	\$205.00	Custom Growing of other species and stock types gladly considered
STYRO 8	\$362.00	\$69.00	\$270.00	
STYRO 10	\$417.00	\$84.00	\$310.00	
STYRO 15	\$461.00	\$92.00	\$375.00	
<b>BAREROOT</b>				
PLUG+1	\$432.00	\$77.00	\$340.00	Summer/Fall Transplanting add \$40/M if desired - And well worth it
PLUG+1 WH			\$360.00	
(S) 1+1	\$349.00	\$69.00	\$305.00	
PLUG+2	\$637.00	\$99.00		
<b>TRANSPLANT SERVICE (of your plugs)</b>			\$220.00	

**Seed Charges:** Apply to all OTC Plants. We are a leading collector/supplier of source identified seeds to the forest and ornamental plant market. We are particular about quality, origin and matching our plants to your purpose and site. The seed charge for all offered plants here is \$5/M except as follows: Noble, Grand & Shasta fir origins and Canadian origins of Douglas fir are \$12/M. Fraser fir & improved orchard Douglas fir are \$20/M. Elite Noble fir Christmas orchard sources & Nordmann fir origins are \$50/M. Rust resistant Western white pine is \$75/M. If you wish a bulk seed purchase beyond your current plant requirement, please inquire.

**Mycorrhizae:** We inoculate all our OTC seedlings. This key relationship between fungi & plant roots upon outplant increases nutrient uptake, disease resistance & tree survival, especially on difficult sites.

**\*\*Contract Growing:** Prices indicated are approximate and negotiable depending on quantity, species and custom services such as single sowing of orchard seed, mycorrhizal inoculation, cold storage, delivery requirements, c.r. fertilizer, auxiliary photo period etc.

**Transplant Service:** A contract service. Also, summer/fall transplanting is highly advised for many species resulting in greater caliper and root mass (and that's the point!!), and is an extra cost option at \$40/M.

**New Seedling Type:** Large cell Megaplugs (Styro 15 or 20) 1+ year old plant, anticipated to compete with a 1-1 or plug+1 seedling type. The main advantage to this seedling type is it provides the user better time latitude in ordering seedlings, and produces a quality out-plantable seedling in a shortened timetable, as well as providing for a fall or spring outplant capability.

**Cold Storage:** We are glad to offer on site cold and /or freezer storage for our customers who require it. We recommend freezer storage when time is expected to exceed 3 months due to your planting constraints. We will notify you when your trees are ready. After a 10 day grace period, storage charges accrue on a weekly basis.

- Container seedlings at a rate of \$1/M/Week
- Transplant seedlings at a rate of \$2/M/Week
- Megaplug seedlings (Styro 15 & 20) at a rate of \$3/M/Week
- Freezer storage if required add 20% to above rates

**U.P.S., Special USPS, FedEx, etc.:** Packing & handling for this shipping method is an additional \$45/M.

Even if a seedling lot is currently sold out (s/o), we maintain a wait list in the event of overruns or cancellations - please inquire.

Prices subject to change.
